

BioMarin U.S. Product Price Reference (Effective as of January 2022)

Colorado House Bill 19-1131/Wholesale Cost disclosure, drugs

Under Colorado law, representatives of pharmaceutical manufacturers must provide prescribers with the wholesale acquisition cost (WAC) of prescription drugs in certain situations. To comply with this requirement, please refer to BioMarin's official price list below, which specifies the wholesale cost for all of its drugs sold in the United States.

It is important to consider the following:

- WAC is the list price paid by a wholesaler, distributor, and other direct accounts for drugs purchased from the wholesaler's supplier. Generally, it is the price set by the manufacturer of the drug before any rebates, discounts, allowances, or other price concessions are offered by the supplier of the product
- Patients' out-of-pocket cost will be dependent on their individual insurance coverage
- BioMarin offers a co-pay program for eligible commercially insured patients taking some of its drugs; many participating patients paid \$0 out of pocket

The BioMarin product prices listed below are the U.S. WAC or manufacturer list prices.

Brand name	Generic name	NDC	Strength	Package Size	U.S. WAC	Effective Date
NAGLAZYME®	galsulfase	68135-0020-01	1 mg/1 mL	5 mL vial	\$2,092.00	01 Jan 2022
VIMIZIM®	elosulfase alfa	68135-0100-01	1 mg/1 mL	5 mL vial	\$1,269.00	01 Jan 2022
